# INDEX TO VOLUME XXXIII.

## A.

Acclimation encouraged in Australia, *W. H. Archer*, 433.
*Agassiz, L.*, on new Sauroid Remains discovered by O. C. Marsh, 138.
Agriculture, sixth annual report of Maine Board, 452.
*Archer, W. H.*, Acclimation encouraged in Australia, 433.
Army telegraph, 119.
Arsenic eating in Styria, 126.
Artesian well at Passy, *L. S.*, 151, 438.
Artificial pearls, *J. Nicklès*, 120.
ASTRONOMY—
Asteroid (59), (60), new name for, 435, 144; (71) Niobe, elements of, 144; (72), *T. H. Safford*, 287.
Asteroids recently discovered, *G. P. Bond*, 288.
Catalogue of meteorites and fireballs, from A. D. 2 to A. D. 1860, *R. P. Greg*, 291; by *Kesselmeyer*, 292.
Comet, Encke's, reappearance of, 144. *G. P. Bond*, 290.
telescopic, *H. P. Tuttle*, 289.
Comets, distinguishing features of, phases of an electrical discharge, *B. V. Marsh*, 89.
Disappearance of a nebula, *J. R. Hind*, 436.
Discovery of asteroid (73), *H. P. Tuttle*, 436.
Meteoric fireballs of Aug. 2 and 6, 1860, computation of their paths, *H. A. Newton*, 338.
Meteoric observations in Oct. and Dec. 1861, *E. C. Herrick*, 147, 148.
Meteoric Rings, *A. C. Twining*, 244.
Meteors of November, 1861, *A. C. Twining*, 146.
large, in Dec. and Jan., 291.
Re-discovery of asteroid Calypso (53), *Dr. Luther*, 435.
Shooting stars, Jan. 2, 1862, *E. C. Herrick*, 290.
Sirius, companion of, *G. P. Bond*, 286.
Solar eclipse of July 18, 1860, 145.
Ueber den Ursprung der Meteorsteine, *P. A. Kesselmeyer*, 292.
Aurora an electric discharge, *De LaRive* on the paper of B. V. Marsh, 294.

## B.

Bacon, Roger, works of, *J. Nicklès*, 110.
*Balch, D. M.*, Orthite from Swampscot, Massachusetts, 348.
Bayberry tallow, *G. E. Moore*, 313.
Berthier, Pierre, obituary of, 108.
*Billings, E.*, age of red sandrock of Canada and Vermont, 100, 421.
date of progress report of geological survey of Wisconsin, 420.
Hall's claim of priority in the determination of age of red sandrock series of Vermont, 370.
new species of Lower Silurian fossils, 136, 279.
Biot, obituary of, 441.
*Blake, E. W., Jr.*, rubidium and cæsium in triphyline, 274.
*Blake, W. P.* and *R. Pumpelly*, commissioned to explore Japan, 155.
Blume, C. L., obituary, *A. Gray*, 428.
Bologna Museum, noticed, 151.
*Bond, G. P.*, companion of Sirius, 286.
recently discovered asteroids, 288.
Books received, 155.
Boston, Soc. Nat. Hist. Proceed., 160, 304.
Botanical notices, *A. Gray*, 139, 427.
Botanical necrology, *A. Gray*, 427.
BOTANY—
Annals of the Botanical Society of Canada, 432.
Aroideæ, by *Dr. Schott*, 142.
Bonapartea juncea, (flowering at Rochester, N. Y.) 432.
Carices, 141.
De Candolle's Prodromus, Pars XV, 430.
Heather a native of the United States, *E. S. Rand, Jr.*, 22.
Illustrations of the genus Carex, *F. Boott*, 430.
Journal de Botanique Neerlandaise, redigé par *F. A. W. Miquel*, 140.
Mémoire sur le Cynomorium coccineum, *H. A. Weddell*, 139.
Monographia Betulaceæarum hucusque cognitarum, *E. Regel*, 139.
Musci Cubenses Wrightiani, coll. 1856–1858, 141.
Plants of the Rocky mountains, collected by *C. C. Parry*—enumeration by *A. Gray*, 237, 404.
Proceedings of the Linnæan Society, No. 21, 143.
Tropical fibres, production and extraction, 140.
*Thwaite's* enumeratio Plantarum Zeylaniæ, plants of Ceylon, 432.
Rocky Mountain Flora, collection of *C. C. Parry*, 141.
Walpers' Annales Botanices systematicæ, continued by *C. Müller*, 140.

# INDEX TO VOLUME XXXIII.

*Bond, G. P.*, companion of Sirius, 286.
recently discovered asteroids, 288.
Books received, 155.
Boston, Soc. Nat. Hist. Proceed., 160, 304.
Botanical notices, *A. Gray*, 139, 427.
Botanical necrology, *A. Gray*, 427.
BOTANY—
Annals of the Botanical Society of Canada, 432.
Aroideæ, by *Dr. Schott*, 142.
Bonapartea juncea, (flowering at Rochester, N. Y.) 432.
Carices, 141.
De Candolle's Prodromus, Pars XV, 430.
Heather a native of the United States, *E. S. Rand, Jr.*, 22.
Illustrations of the genus Carex, *F. Boott*, 430.
Journal de Botanique Neerlandaise, redigé par *F. A. W. Miquel*, 140.
Mémoire sur le Cynomorium coccineum, *H. A. Weddell*, 139.
Monographia Betulaceæarum hucusque cognitarum, *E. Regel*, 139.
Musci Cubenses Wrightiani, coll. 1856–1858, 141.
Plants of the Rocky mountains, collected by *C. C. Parry*—enumeration by *A. Gray*, 237, 404.
Proceedings of the Linnæan Society, No. 21, 143.
Tropical fibres, production and extraction, 140.
*Thwaite's* enumeratio Plantarum Zeylaniæ, plants of Ceylon, 432.
Rocky Mountain Flora, collection of *C. C. Parry*, 141.
Walpers' Annales Botanices systematicæ, continued by *C. Müller*, 140.

*Bunsen*, Lithia in Meteorites, 273.
*Bunsen's* Spectroscope, 440.

C.

*Carius* and *Wanklyn*, combination of hydrogen and iron, 272.
*Chandler, C. F.*, new metal in native platinum of Rogue River, Oregon, 351.
Chemical analysis by dialysis, or diffusion of liquids, *Graham*, 412.
CHEMISTRY—
A new metal in native platinum of Rogue River, Oregon, *C. F. Chandler*, 351.
Action of sulphur and phosphorus groups on solutions of metals, 328.
Amorphous phosphorus, *J. Nicklès*, 115.
Analysis of spectra colored by metallic salts, *Debray*, 414.
Artificial production of protein substances; rival claims of discoverers, *J. Nicklès*, 113; editorial notes, 114.
Berberin in Hydrastis Canadensis, *F. Mahla*, 43.
Cæsium and rubidium in triphyline, *E. W. Blake, Jr.*, 274.
Colored derivatives of naphthaline, *M. Carey Lea*, 229.
Combination of hydrogen and iron, 272.
Croconic and rhodizonic acids, 274.
Cyanid of sulphur, 271.
Determination of carbon in iron, 273.
Determination of carbonic acid in organic analysis, *Mulder*, 415.
Determination of density of vapors at low temperatures, *Playfair* and *Wanklyn*, 413.
Determination of lithium as phosphate of lithia, *Fresenius*, 416.
Double salts of cyanid of mercury, *W. P. Dexter*, 121.
Ethyl, nitrate, *M. Carey Lea*, 86.
Ethylamine and Diethylamine, reactions of, *M. Carey Lea*, 80.
Fusible alloy, (new), *B. Wood*, 276.
Hydrofluosilicic acid, *H. Deville*, 277.
Lithia in meteorites, 273.
Methyl bases and nitrate of methyl, *M. Carey Lea*, 227.
Methylamine, *M. Carey Lea*, 366.
Organic alkaloids, new method of detecting and preparing, *Erdmann* and *von Udar*, 415.
Peroxyds of potassium and sodium, 273.
Platinum, American process of working, *F. H. Storer*, 124.
Rhodizonic acid, 274.
Rubidium and cæsium in triphyline, *E. W. Blake, Jr.*, 274.
Safety lamp for laboratory use, *C. M. Warren*, 275.
Spectra of phosphorus and sulphur, *Sequin*, 414.
Waterglass, *J. M. Ordway*, 27.
Wax of Myrica cerifera, chemical constitution of, *G. E. Moore*. 313.
Cicada septendecim, *E. C. Herrick*, 433.
Colorado river of the West, *J. C. Ives*, 387.
Comets, see *Astronomy*.
Conchology, history of, in the United States, 161.
Copley medal, and Royal medals awarded 1861, 155.
*Coues, E.*, ornithology of Labrador, 298.
Cournot, works noticed by *J. Nicklès*, 111.

D.

*Dana, J. D.*, fossil larvæ in Connecticut river sandstone, 417.
Daubenton, biographical notice, by *J. Nicklès*, 112.
Daubrée and d'Archiac, opening lectures by, 441.
*Dawson, J. W.*, Canadian pleistocene fossils and climate, 278.
precarboniferous flora of New Brunswick, Maine and Eastern Canada, 278.
*Debray*, analysis of spectra colored by metallic salts, 414.
*De LaRive*, letter from, reclaiming discovery of aurora as an electric discharge, 294.
Deppe, F., obituary, *A. Gray*, 427.
*Deville, H.*, hydrofluosilicic acid, 277.
DeVriese, Wm. H., obituary of, 428.
*Dexter, W. P.*, double salts of cyanid of mercury, 121.
*Dove's* photometer, 269.

E.

Earthwork, theorems, &c., for computation of, *J. Warner*, 304.
*Erdmann* and *von Udar*, detection and preparation of organic alkaloids, 415.

F.

*Faye*, electrical effects, 116.
Florence, Museum of, 151.
*Fresenius*, determination of lithia in phosphate of lithia, 416.
Fürnrohr, A. E., obituary, *A. Gray*, 427.

G.

*Gabb, W. M.*, California survey, 155.
*Geinitz, H. B.*, Dyas, oder die Zechstein Formation und das Rothliegende, 425.
*Genth, F. A.*, contributions to mineralogy, 190.
Geographical notices, by *D. C. Gilman*, viz. Africa: Speke's journey to Lake Nyanza, 259; Petherick's expedition to Gondokoro, 260; Dr. Livingstone, latest intelligence from, 262; Lejean's expedition to Gondokoro, 263; Roscher and von der Decken, 263. Polar regions: polar expedition of Dr. Hayes, 263. Torrell's polar expedition, 265; North Atlantic telegraph explorations, 265.
Geological map of Italy, 151.
Museum at Rochester, N. Y., *B. Silliman, Jr.*, 449.
survey of Wisconsin, *J. Hall* and *J. D. Whitney*, 453.
Geology and Natural History of Upper Missouri, *F. V. Hayden*, 452.
Geological Society of France, *L. S.*, 439.
GEOLOGY—
Age of Quebec rocks, *W. E. Logan*, 105.

GEOLOGY—
Age of so-called Leclare limestone and Onondaga salt-group of the Iowa Report, *A. H. Worthen*, 46.
of Red Sandrock formation of Canada and Vermont, *E. Billings*, 100, 421.
series of Vermont, J. Hall's claim of priority in determination, *E. Billings*, 370.
California survey, *W. M. Gabb*, 155.
Canadian Pleistocene fossils and climate, *J. W. Dawson*, 278.
Coal formations and coal plants of N. America, *L. Lesquereux*, 206.
Colorado river of the West, *J. C. Ives*, 387.
Contributions to Palæontology, *J. Hall*, 127, 280.
Cretaceous fossils from Texas, *B. F. Shumard*, 300.
Date of report of geological survey of Wisconsin, *E. Billings*, 420.
Daubrée, professor at the Jardin des Plantes, 150, 441.
Discovery of microscopic organisms in hornstone, *M. C. White*, 385.
Dyas, oder die Zechstein-Formation und das Rothliegende, *H. B. Geinitz*, 425.
Fossil larve in Connecticut river sandstone, *Hitchcock*, 451.
Glauconite in Lower Silurian rocks, *T. S. Hunt*, 277.
Japan to be explored by Blake and Pumpelly, 155.
Lower Silurian fossils, new species of, *E. Billings*, 136, 279.
Mississippi valley.—Rocks and new fossils from Burlington, Iowa, *C. A. White* and *R. P. Whitefield*, 422.
New Cephalopods from Marshall and Huron groups in Wisconsin, *A. Winchell*, 354.
New York State cabinet of Natural History, Fourteenth An. Rep. of Regents of Univ. of N. Y., 1861, 279.
Period of elevation of Rocky mountains near sources of Missouri river and its tributaries, *F. V. Hayden*, 305.
Post-pliocene fossils of South Carolina, *F. S. Holmes*, 298.
Potsdam sandstone and Hudson river rocks in Vermont, *James Hall*, 106.
*Prof. Hall's* rejoinder to criticisms of this Journal on his Contributions to Palæontology, 127.
Precarboniferous flora of New Brunswick, Maine, and Eastern Canada, *J. W. Dawson*, 278.
Primordial sandstone of Rocky mountains, *F. V. Hayden*, 68.
Quebec group and upper copper-bearing rocks of Lake Superior, *W. E. Logan*, 320.
Report on geology of Vermont, *Hitchcock* and *Hager*, 416.
Rocks of Michigan and supposed new Cephalopods, *A. Winchell*, 352.
Saurian remains in the Keuper of the Jura, 138.
vertebræ from Nova Scotia, note on, by *L. Agassiz*, 138.
GEOLOGY—
Saurian vertebræ from Nova Scotia, *O. C. Marsh*, 278.
Taconic and Lower Silurian rocks of Vermont and Canada, *Marcou*, 281.
system of Emmons, *T. S. Hunt*, 135.
Thirty years' progress in geology of the older rocks, *R. I. Murchison*, 1.
Unity of geological phenomena in the solar system, *L. Sœmann*, 36.
Geometrical drawing, *S. E. Warren*, 303.
*Gibbs, W.*, physics and chemistry, 270, 412.
*Gilman, D. C.*, geographical notices, 259.
Gorilla, *L. J. Sanford*, 48.
*Graham*, diffusion of liquids a means of chemical analysis, 412.
Grateloup, M. de, obituary notice of, 149.
*Gray, A.*, botanical notices, 139.
plants of the Rocky mountains collected by C. C. Parry, enumeration of, 237, 404.
Greg, R. P., catalogue of meteorites and fireballs from A.D. 2 to A.D. 1860, noticed, 291.
Guano and artificial pearls, 120.

## H.

*Hager, A. D.*, geology of Vermont, 416.
*Hall, J.*, contributions to Palæontology, 280.
geological survey of Wisconsin, 453.
Potsdam sandstone and Hudson river rocks in Vermont, 106.
rejoinder to criticisms on his Contributions to Palæontology, 127.
*Harcourt*, peroxyds of potassium and sodium, 273.
Harris, T. W., insects injurious to vegetation, noticed, 434.
*Hayden, F. V.*, period of elevation of Rocky mountains near source of Missouri river, &c., 305.
geology and natural history of the Upper Missouri, 452.
primordial sandstone of the Rocky mountains, 68.
Henckel von Donnersmarck, obituary of, *A. Gray*, 427.
*Henry, J.*, letter from, on distribution of specimens in natural history by the Smithsonian Institution, 441.
Henslow, J. S., obituary, *A. Gray*, 427.
*Herrick, E. C.*, meteoric observations, Dec. 1861, 148; in Oct. 1861, 147.
shooting stars of January 2, 290.
uprising of seventeen-year Cicada in 1860, in New Haven Co., Conn., 433.
*Hildreth, S. P.*, meteorological journal kept at Marietta, Ohio, 1861, 216.
*Hind, J. R.*, disappearance of a nebula, 436.
*Hitchcock, C. H.*, geology of Vermont, 416.
*Hitchcock, E.*, and *E. Jr.*, geology of Vermont, 416.
*Holmes, F. S.*, Post-pliocene fossils of South Carolina, 298.
*Hunt, T. S.*, glauconite in Lower Silurian rocks, 277.
Taconic system of Emmons, 135.

I.

Italian exhibition at Florence in 1861, 152.
Italy, mineral productions of, 153.
*Ives, J. C.*, Colorado river of the West, 387.

J.

James, E., obituary of, 428.
Jobard, obituary of, 108.
Jules, M. C., Marquis de Tristan, obituary of, *A. Gray*, 428.

K.

*Kesselmeyer, P. A.*, Ueber den Ursprung der Meteorsteine, noticed, 292.

L.

*Lea, M. Carey*, colored derivatives of naphthaline, 229.
methyl bases and nitrate of methyl, 86, 227.
methylamine, 366.
reactions of ethylamine and diethylamine, 80.
Leonhard, K. C. v., obituary, 453.
*Lesquereux, L.*, coal formations and coal plants of North America, 206.
*Linnemann*, cyanid of sulphur, 271.
*Logan, T. M.*, meteorological observations at Sacramento, Cal., 1861, 293.
*Logan, W. E.*, age of Quebec rocks, 105.
Quebec group and the upper copper-bearing rocks of Lake Superior, 320.
*Loomis, E.*, astronomical notices, 144, 288, 435.
*Luther, Dr.*, rediscovery of asteroid Calypso (53), 435.
*Lyman, C. S.*, cannonading at Bull Run, heard 125 miles, 154.

M.

*Mahla, F.*, berberin in Hydrastis Canadensis, 43.
*Marsh, O. C.*, saurian vertebræ from Nova Scotia, 138, 278.
*Marcou*, Taconic and Lower Silurian rocks of Vermont and Canada, 281.
*Marsh, B. V.*, features of comets considered as phases of an electrical discharge, 89.
Meteorological journal kept at Marietta, Ohio, in 1861, *S. P. Hildreth*, 216.
observations at Sacramento, Cal., in 1861, *T. M. Logan*, 293.
Meteors, see *Astronomy*.
Microscopic forms determined by images which they form of external objects, *O. N. Rood*, 65.
vision as influenced by diffraction, *M. C. White*, 377.
Milan, civic museum, 151.
Military photography, 120.
Mineral productions of Italy, 153.
Mineralchemie, Rammelsberg's, reviewed, *F. A. Genth*, 204.
Mineralogical and Geological museum at Rochester, N. Y., 449.
Minerals—
Antimonial arsenic and arsenolite, *F. A. Genth*, 190.
Arsenids of copper, *F. A. Genth.*—*a.* Whitneyite, 191; *b.* algodonite, 192; *c.* Domeykite, 193.
Minerals—
Automolite, *F. A. Genth*, 196.
Chrysolite and minerals resulting from its alteration, *F. A. Genth*, 199.
Copperglance pseudomorphous after galena, *F. A. Genth*, 194.
Gold pseudomorph after aikinite, *F. A. Genth*, 190.
Kerolite, *F. A. Genth*, 203.
Leopardite, a true porphyry, *F. A. Genth*, 197.
Lime-epidote, *F. A. Genth*, 197.
Millerite, *F. A. Genth*, 195.
Monazite, *F. A. Genth*, 204.

Proustite (?), *F. A. Genth*, 195.
Pyrope, *F. A. Genth*, 196.
Serpentine, *F. A. Genth*, 203.
Staurotide (?), *F. A. Genth*, 198.
*Miquel, F. A. W.*, Journal de Botanique Neerlandaise, 140.
Mississippi river, Physics and hydraulics of the, 181.
Monte Rosa, ascent of, by *K. Twining*, 442.
*Moore, G. E.*, wax of the Myrica cerifera, chemical constitution, 313.
*Mulder*, determination of carbonic acid in organic analysis, 415.
*Müller, C.*, continuation of Walper's Annales Botanices Systematicæ, 140.
*Müller, Max*, Science of Language, 300.
Museum of Bologna, of Florence, of Milan, 151.
Geological at Rochester, Ward's, 449.
*Murchison, R. I.*, retrospect, progress of geology of the older rocks, 1.

N.

*Newton, H. A.*, meteoric fireballs of Aug. 2 and 6, 1860, with computation of their paths, 338.
*Nicklès, J.*, correspondence of, 108.

O.

Obituary, 108, 149, 427, 453.
*Ordway, J. M.*, waterglass, 27.
Ornithology of Labrador, *E. Coues*, 298.
Oxygenated beverages, *Maumené*, 116.

P.

*Parkman, T.*, action of substances of the sulphur and phosphorus groups on solutions of the metals, 328.
Parmentier, biographical notice, 113.
*Parry, C. C.*, Rocky mountain physiography, 231.
Rocky mountain flora, 141, 237, 404.
Philadelphia Acad. Nat. Sci., proceedings, 159.
Physics—
Aurora an electric discharge, *De La Rive*, reclamation, 294.
Cannonading at Bull Run, 154.
Depth of the ocean, 121.
Diffraction, influence upon microscopic vision, *M. C. White*, 377.

PHYSICS—
Electric spark studied by photography, *O. N. Rood*, 219.
Electric telegraph, physiological effects, 119.
Electric telegraphy: submarine communications, 118.
Electricity: effects of powerful tension, *Faye*, 116.
Electro-magnetism: new experiments, 117.
Features of comets, phases of an electrical discharge, *B. V. Marsh*, 89.
Photometer of Dove, *O. N. Rood*, 269.
Specific heat of certain elements, *Regnault*, 270.
Spectroscope of Bunsen, *L. S.*, 440.
Temperature of the Atlantic ocean compared with the air, *Andres Poey*, 268.
Platinum, American process of working, *F. H. Storer*, 124.
*Playfair* and *Wanklyn*, density of vapors at low temperatures, 413.
*Poey, A.*, temperature of the Atlantic ocean compared with the air, 268.
Prout, H. A., obituary of, 453.
Pumpelly, R. and W. P. Blake commissioned to explore Japan, 155.

R.

Rammelsberg's Mineralchemie criticised, *F. A. Genth*, 204.
*Regel, E.*, Monographia Betulacearum hucusque cognitarum, 139.
*Regnault*, specific heat of elements, 270.
Rocky mountains, physiographical sketch, *C. C. Parry*, 231.
*Rood, O. N.*, Dove's photometer, 269.
electric spark studied by photography, 219.
microscopic forms determined by their action as minute mirrors, 65.

S.

*Sæmann, L.*, unity of geological phenomena in the solar system, 36.
Paris correspondence by, 149, 438.
*Safford, T. H.*, discovery of asteroid (72), 287.
Salm-Dyck, Joseph, obituary, 427.
*Sanford, L. J.*, the gorilla, 48.
*Schott*, Aroideæ, 142.
Scientific ethics, notes on J. Hall's reply to criticisms of this Journal, *Editors*, 132.
Ship canal near Isthmus of Darien, report of survey, 296.
Shooting Stars, see *Astronony*.
*Shumard, B. F.*, cretaceous fossils from Texas, 300.
Smithsonian Institution, distribution of specimens in Nat. Hist., *J. Henry*, 441.
Smithsonian Report for 1860, 296.
*Squier, E. G.*, tropical fibres, production and extraction, 140.
Statues of distinguished men, 111.
St. Hilaire, Isidore Geoffroy, obituary notice, 149.
*Storer, F. H.*, American process of working platinum, 124.
*Storer, F. H.*, technical chemistry, 275.

T.

Telegraph, army, *J. Nicklès*, 119.
physiological effects, *J. Nicklès*, 119.
submarine, *J. Nicklès*, 118.
Tenore, M., obituary, *A. Gray*, 427.
Tropical fibres, production and extraction, *E. G. Squier*, 140.
Tunnel of Mt. Cenis, *L. S.*, 439.
*Tuttle, H. P.*, discovery of a telescopic comet, 289.
discovery of asteroid (73), 436.
*Twining, A. C.*, meteoric rings affected by the earth, 244.
report on meteors of Nov. 1861, 146.
*Twining, K.*, ascent of Monte Rosa in Switzerland, 442.

V.

Van den Bosch, R. B., obituary, 428.

W.

*Wanklyn* and *Carius*, combination of hydrogen and iron, 272.
*Wanklyn* and *Playfair*, density of vapors at low temperatures, 413.
Ward, Prof. H. W., notice of his Geolog. Museum, 449.
*Warren, C. M.*, safety lamp for laboratory use, 275.
*Warren, S. E.*, manual of elementary geometrical drawing, 303.
Waterglass, *J. M. Ordway*, 27.
*Warner, J.*, computation of earth-work, 304.
*Weddell, H. A.*, Mémoire sur le Cynomorium coccineum, 139.
Wenderoth, G. W. F., obituary, 428.
*Weyl*, determination of carbon in iron, 273.
*White, C. A.*, and *R. P. Whitfield*, rocks of Mississippi valley referred to Chemung group, and new species of fossils from Burlington, Iowa, 422.
*White, M. C.*, diffraction in microscopic vision, 377.
discovery of microscopic organisms in hornstone, 385.
*Whitney, J. D.*, Upper Mississippi lead region, 453.
*Will*, croconic and rhodizonic acids, 274.
*Winchell, A.*, new cephalopods from rocks of Marshall and Huron groups of Michigan, 354.
rocks of Michigan, 352.
*Wood, B.*, new fusible alloy, 276.
*Worthen, A. H.*, age of so-called Leclare limestone and Onondaga salt group of the Iowa report, 46.
*Wright, C.*, musci Cubenses Wrightiani, 141.

Z.

ZOOLOGY—
Insects injurious to vegetation, *T. W. Harris*, noticed, 434.
Seventeen-year cicada in New Haven County, Conn., 1860, *E. C. Herrick*, 433.
